PROF. IKHLAQ SIDHU

Co-Founder of Global Venture Lab

University of California – Berkeley, United States

Ikhlaq Sidhu is a professor in the Industrial Engineering & Operations Research Department at U.C. Berkeley and an authority in the technology management, with a prolific background as an inventor and executive in the telecommunications and networking industry. He is the founding director of U.C. Berkeley's Center for Entrepreneurship & Technology, Co-chair U.C. Berkeley's Management of Technology Program. Professor Sidhu has also developed the Global Venture Lab and mentoring network at U.C. Berkeley which has spun-out over \$100M of value in new technology firms in its first 3 years.

Within industry, Dr. Sidhu has held senior executive and technology leadership positions at U.S. Robotics Corporation, 3Com Corporation and Cambia Networks. He was awarded 3Com's "Inventor of the Year" award in 1999 and he has been granted over 50 US Patents in fundamental and broadly used areas of networking technology, IP telephony, and PDA functionality. Technology and intellectual property from his work has been cross-licensed to Palm Computing, 3Com, and UT Starcom.

Dr. Sidhu received his bachelor's degree in Electrical and Computer Engineering from the University of Illinois at Urbana-Champaign, and his masters' degree and doctorate in Electrical Engineering from Northwestern University.
